to our neighbors from UC·San Francisco

Parking/ Transportation Committee

In a further attempt to find ways of alleviating parking and transportation problems a newly reorganized UCSF-Community Committee has been set up, and its first meeting was held on Thursday evening, Oct. 7. Invited to participate with Chairman John Elberling, a community person who has been active in transportation issues in S.F., were: Supervisor Ronald Pelosi; S. M. Tartarian, Director, S.F. Dept. of Public Works; Laverna Canatela, Mission Planning Council; Gerald Cuathen, Planner with MUNI; Anna Darden, President, HANC; Sharon Greene of SPEAK; John Kirkwood, BART Board of Directors; and Marcia Lindeen, ISAC; as well as several UCSF staff. According to Chancellor Sooy, the restructuring of the committee has been done in an attempt to devise a practical and workable policy and plan for traffic, parking and transportation problems. The first phase will involve an analysis of immediate and long-range problems, with recommended policies and programs to mitigate adverse impacts. Completion of this first phase, according to Chancellor Sooy, is scheduled for March 1, 1977. Meantime, we are going ahead with the pledge by the Regents to put $25,000 into a independent consultant who will help us with these problems.

First House for Sale

The first UCSF house, at 1325 - 3rd Avenue plus two empty lots will go on the open market in November. These are the first of the campus properties pledged by the UC Regents to be sold back to private residential use. Watch for the ads in the newspaper real estate sections, or call our Information line, 666-1131, for details.

Outdoors Unlimited

Outdoors Unlimited is a community resource for outdoor activities ranging from day hikes and nature studies to sailing and mountaineering. All activities are free or nearly free, and they are all open to the public. To find out more about Outdoors Unlimited programs, drop by their office at 1309 - 3rd Avenue (Monday - Friday, 11:30 am - 1:30 pm and 4 pm - 6 pm); or give them a call at 666-2078.

Dear Neighbors

The University of California San Francisco provides an interesting variety of cultural, educational, recreational and entertainment programs on our campus — almost all of which are open to you as residents of this neighborhood — many of them free or at a low fee. Our attempt is to serve both our campus family and the community in as varied a way as possible — through films, lectures, musical and dance events and our "Learning Unlimited" classes, which offer opportunities for developing skills, enjoyment and self-improvement. These programs are sponsored by the UCSF Committee on Arts and Lectures, Millberry Student Union, Outdoors Unlimited and Continuing Education Department. This newsletter is an attempt to inform you of all the things that are going on on our campus — plus the co-operative activities that our Department of Public Service Programs is beginning to develop off-campus. We want you to consider our UCSF campus a neighborhood and city resource — which, of course, it is.

I expect that our building program, which has just begun on Fourth Avenue at Parnassus, may be inconveniencing some of you, as it is many of us. We are making every effort — through the contractors who are now about to begin the new School of Dentistry building and the Moffitt Modernization program — to provide as little disruption as possible, but there is no doubt that there will be some inconvenience on campus and off. We will try to keep it at a minimum.

We have now set up a special Information telephone. *Please call 666-1131,* if you have any problems or questions concerning construction or the purchase of the houses on 3rd Avenue, the first of which, as promised by the Regents, will shortly be placed on the open market for sale. We would like to hear any suggestions you may have in this or any other regard.

Sincerely yours,
Francis A. Sooy, MD
Chancellor

Preferential Parking

Preferential Parking is a means of insuring that the neighborhood parking spaces are available for the neighbors. It would allow only people who reside in the neighborhood surrounding the University to park for extended periods, such as all day, in neighborhood spaces. Patients, students and employees of UCSF would be able to park for only one, two or three hours before they would be ticketed. Neighbors' cars would have stickers to distinguish them from those of non-neighbors. Although the campus is doing everything possible to get its staff, students and visitors to use public transportation to alleviate congestion, the reality is that if there is an open parking space on the street, patients, students and employees will use it. Many other, equally crowded, S.F. neighborhoods therefore are looking seriously at perferential parking as a solution. **The University will support any neighborhood request from this area for such a system. Telegraph Hill residents already are attempting to implement it there. ONLY RESIDENTS OF THE AREA CAN ASK THE CITY TO PUT THIS INTO EFFECT.** If you want information on how to proceed, call our Information line, 666-1131, or Norman Bray at the Department of Public Works, 558-3371.

Athletic Card Limited Area

Community Athletic Privilege Cards allow the holder the right to use Millberry Union's swimming pool, saunas, weight room and gym. The card may be purchased for $10, and the user must pay $1 each time s/he uses the facilities. Five guests are allowed on each card at $1 per guest. **Cardholders must live within the area bounded by Kirkham, 9th, Lincoln and Clayton Streets.** Limited number available; on sale now at the Central Desk in the Main Lobby of Millberry Union, Monday - Friday, 10 - 4:30. Cards will be valid through December 31.
